### Microsoft 365 Web Developer

Experienced, agile-focused Microsoft 365 web developer specializing in creating effective collaborative solutions. Proficient in SharePoint, Microsoft Teams and Azure, I used React, TypeScript and PowerShell to develop custom WebParts, automate processes and create data-centric solutions with Microsoft Graph. My Agile approach ensured productive and innovative results, improving productivity and fostering innovation.

○ 09.2021 - 01.2022

FindQuickly, Sarreguemines, France

### Full-stack JavaScript Developer

As a full-stack JavaScript developer, I've designed and implemented complete solutions on both the client and server sides. Mastering front-end technologies such as React, I created modern, interactive user interfaces. At the same time, my server-side expertise with Node.js enabled me to guarantee optimal performance and efficient data management.
